基础大纲词 精读补充词 核心重难词
常考大纲短语 核心精读短语 考点长难句

P1 ① The relationship between formal education and economic growth in poor countries is widely misunderstood by economists and politicians alike. ② Progress in both areas **is** undoubtedly **necessary for** the social, political and intellectual development of these and all other societies; however, the conventional view that education should be one of the very highest priorities for promoting rapid economic development in poor countries is wrong. ③ We are fortunate that it is, because building new educational systems there and **putting** enough people **through** them to improve economic performance would require two or three generations. ④ The findings of a research institution have consistently shown that workers in all countries can be trained on the job to achieve radically higher productivity and, **as a result**, radically higher standards of living.

①对于贫困国家中正规教育与经济增长之间的关系，经济学家和政界人士普遍存在误解。②毫无疑问，这两方面的进步对于这些国家乃至其他所有社会在社会、政治和思想上的发展都是必要的；然而，认为教育应当是贫困国家促进经济快速发展的头等要务之一，这一传统观点是错误的。③所幸这一观点是错的，因为要在这些国家建立新的教育体系，并让足够多的人接受教育以改善经济表现，需要两三代人的时间。④某研究机构的研究结果一再表明，各国的工人都可以通过在岗培训大幅提高生产率，从而大幅提升生活水平。

P2 ① Ironically, the first evidence for this idea appeared in the **United States**. ② **Not long ago**, with the country entering a recession and Japan **at** its pre-bubble **peak**, the U.S. workforce was derided as poorly educated and one of the primary causes of the poor U.S. economic performance. ③ Japan was, and remains, the global leader in automotive-assembly productivity. ④ Yet the research revealed that the U.S. factories of Honda, Nissan, and Toyota achieved about 95 percent of the productivity of their Japanese counterparts— a result of the training that U.S. workers received on the job.

①颇具讽刺意味的是，这一结论的首个佐证出现在美国。②不久前，当美国陷入经济衰退，而日本正处于泡沫破裂前的顶峰之际，美国劳动力被讥讽为受教育程度低，更是美国经济表现不佳的主要原因之一。③在汽车装配的生产率上，日本当时处于全球领先地位，如今仍是如此。④然而研究显示，本田、日产和丰田设在美国的工厂，其生产率达到了日本本土工厂的约95%——这一成果得益于美国工人所接受的在岗培训。

P3 ① More recently, while examining housing construction, the researchers discovered that illiterate, non-English-speaking Mexican workers in Houston, Texas, consistently **met** best-practice labor productivity **standards** despite the complexity of the building industry's work.

①更近一些的时候，研究人员在考察住宅建筑业时发现，在得克萨斯州休斯敦，尽管建筑业的工作十分复杂，但那些不识字、不会说英语的墨西哥工人的劳动生产率却始终能够达到最佳实践标准。

P4 ① What is the real relationship between education and economic development? ② We have to suspect that continuing economic growth promotes the development of education even when governments don't force it. ③ **After all**, that's how education **got started**. ④ When our ancestors were hunters and gatherers 10,000 years ago, they didn't have time to **wonder** much **about** anything besides finding food. ⑤ **Only when** humanity began to get its food in a more productive way was there time for other things.

①教育与经济发展之间的真实关系究竟如何？②我们不得不推测，即便政府不加强制，持续的经济增长本身也会促进教育的发展。③毕竟，教育当初就是这样起步的。④一万年前，我们的祖先还是狩猎采集者，除了觅食之外，他们没有多少时间去思考别的事情。⑤只有当人类开始以更高效的方式获取食物时，才有了做其他事情的时间。

P5 ① As education improved, humanity's productivity potential increased **as well**. ② When the competitive environment pushed our ancestors to achieve that potential, they could **in turn** afford more education. ③ This increasingly high level of education is probably a necessary, but not a sufficient, condition for the complex political systems required by advanced economic performance.

①随着教育的进步，人类在生产率上的潜力也在提高。②当竞争环境促使我们的祖先去发挥这种潜力时，他们反过来也能负担得起更多的教育。③这种日益提高的教育水平，对于先进经济表现所需的复杂政治体系而言，或许是必要条件，但并非充分条件。④因此，贫困国家若不进行政治变革，可能就无法摆脱贫困陷阱，而这种政治变革或许只有在正规教育更为普及的

④ Thus poor countries might not **be able to** escape their poverty traps without political changes that may be possible only with broader formal education. ⑤ **A lack of** formal education, however, doesn't constrain the ability of the **developing world**'s workforce to substantially improve productivity for the foreseeable future. ⑥ **On the contrary**, constraints on improving productivity explain why education isn't developing more quickly there than it is.

条件下才有可能实现。⑤然而，在可预见的未来，正规教育的缺乏并不会制约发展中国家劳动力大幅提高生产率的能力。⑥恰恰相反，正是制约生产率提高的那些因素，解释了为什么那里的教育没有发展得更快。

**Q1.** The author holds in Paragraph 1 that the importance of education in poor countries____. 细节题

[A] **is subject to** groundless doubts

[B] has fallen victim of bias

[C] is conventionally downgraded

[D] has been overestimated

作者在第一段中认为，穷国教育的重要性____。

A.受到无端怀疑

B.成了偏见的牺牲品

C.传统上被低估

D.被高估了

**Q2.** It is stated in Paragraph 1 that the construction of a new educational system____. 细节题

[A] challenges economists and politicians

[B] takes efforts of generations

[C] demands priority from the government

[D] requires sufficient **labor force**

文中第一段说明建立新的教育体系____。

A.会挑战经济学家和政治家

B.需要几代人的努力

C.需要政府优先考虑

D.需要足够的劳动力

**Q3.** A major difference between the Japanese and U.S. workforces is that____. 细节题

[A] the Japanese workforce is better disciplined

[B] the Japanese workforce is more productive

[C] the U.S. workforce has a better education

[D] the U.S. workforce is more organized

美国和日本劳动力的一个主要区别是____。

A.日本劳动力队伍纪律更严明

B.日本的劳动力生产效率更高

C.美国的劳动力受教育程度更高

D.美国劳动力组织更有条理

**Q4.** The author quotes the example of our ancestors to show that education emerged____. 例证题

[A] when people had enough time

[B] **prior to** better ways of finding food

[C] when people **no longer** went hungry

[D] **as a result of** pressure on government

作者引用我们祖先的例子，是为了说明教育在___时兴起。

A.当人们有足够的时间时

B.有更好的办法找到食物之前

C.当人们不再忍受饥饿时

D.对政府施加压力时

**Q5.** **According to** the last paragraph, development of education____. 细节题

[A] **results** directly **from** competitive environments

[B] does not **depend on** economic performance

[C] follows improved productivity

[D] cannot afford political changes

根据最后一段，教育的发展____。

A.由竞争环境直接导致

B.并不取决于经济表现

C.紧随生产效率的提高

D.无法承受政治变化
