基础大纲词　精读补充词　核心重难词
常考大纲短语　核心精读短语　考点长难句

P1 ① Any fair-minded assessment of the dangers of the deal between Britain's **National Health Service** (NHS) and DeepMind must start by acknowledging that both sides **mean well**. ② DeepMind **is one of** the leading **artificial intelligence** (AI) companies **in the world**. ③ The potential of this work **applied to** healthcare is very great, but it could also **lead to** further concentration of power in the **tech giants**. ④ It is **against that background** that the **information commissioner**, **Elizabeth Denham**, has issued her damning verdict against the **Royal Free hospital** trust under the NHS, which **handed over** to DeepMind the records of 1.6 million patients in 2015 **on the basis of** a vague agreement which **took far too** little **account of** the patients' rights and their expectations of privacy.

①对于英国国民医疗服务体系（NHS）与DeepMind公司之间协议的种种危害，任何公正的评价都必须首先承认双方均是好意。②DeepMind是全球领先的人工智能（AI）企业之一。③该技术应用于医疗保健方面的潜力巨大，但也可能导致权力进一步集中于科技巨头。④正是在这样的背景下，英国信息委员会专员伊丽莎白·德纳姆对NHS下属的英国皇家自由医院信托做出了有罪裁定。该医院于2015年将160万病人的档案交给了DeepMind，这一行为仅仅基于一项模糊的协定，远远未能考虑到患者的权利和他们对隐私权的期望。

P2 ① DeepMind has almost apologized. The NHS trust has **mended its ways**. ② Further arrangements — and there may be many — between the NHS and DeepMind will be carefully scrutinized to ensure that all necessary permissions have been asked of patients and all unnecessary data has been cleaned. ③ There are lessons about **informed** patient **consent** to learn. ④ But privacy is not the only angle in this case and not even the most important. ⑤ **Ms Denham** chose to **concentrate** the blame **on** the NHS trust, since under existing law it "controlled" the data and DeepMind merely "processed" it. ⑥ But this distinction **misses the point** that **it is** processing and aggregation, not the mere possession of bits, **that** gives the data value.

①DeepMind几乎已经道歉了。NHS信托也已改过自新。②NHS和DeepMind之间进一步的协定——协定也许有很多——将会受到仔细审查，确保征得患者所有必要的许可，并清除所有不必要的数据。③在患者知情同意方面还需要汲取很多教训。④但在本案中，隐私并非唯一的角度，甚至不是最重要的。⑤德纳姆女士选择将指责的矛头对准NHS信托，是因为在现行法律下，NHS信托“掌控”着数据，而DeepMind仅仅是在“处理”数据。⑥但是这一区分没有抓住要领：赋予数据价值的是处理和聚合信息，而非仅仅拥有信息。

P3 ① The great question is who should **benefit from** the analysis of all the data that our lives now generate. ② **Privacy law builds on** the concept of damage to an individual from identifiable knowledge about them. ③ That misses the way the **surveillance economy** works. ④ The data of an individual there **gains** its **value** only when it **is compared with** the data of countless **millions more**.

①重要的问题在于，分析我们如今生活中产生的一切数据，从中获利的应该是谁。②隐私法构建于“个人的可识别信息会对其带来伤害”这一概念上。③这一概念未能考虑到监察经济的运行方式。④只有在和不计其数的他人数据相比较时，个人数据才能获得价值。

P4 ① The use of **privacy law** to curb the **tech giants** in this instance feels slightly maladapted. ② This practice does not address the real worry. ③ **It is not enough to** say that the algorithms DeepMind develops will benefit patients and **save lives**. ④ **What matters is that** they will **belong to** a private monopoly which developed them using **public resources**. ⑤ If software promises to **save lives** on the scale that drugs now can, **big data** may **be expected to** behave as a big pharma has done. ⑥ We are still

①在这一案例中，使用隐私法约束科技巨头感觉稍有些不适用。②这种做法无法解决真正的担忧。③仅仅说DeepMind开发的算法能让患者受益并拯救生命是不够的。④关键在于，拥有它们的是一家利用公共资源开发算法的私人垄断企业。⑤如果软件在拯救生命方面有望达到药物的水平，那么大数据也可能会和大型制药公司一样行事。⑥我们尚处于这场革命的开端，当前微不足道的选择日后可能会产生巨大的影响。⑦避免数字封建制的到来，我们还需要长期的努力。德纳姆女士的报

at the beginning of this revolution and small choices now may **turn out to** **have** gigantic **consequences** later. ⑦ A long struggle will be needed to avoid a future of **digital feudalism**.
