【英语一】 2009 阅读 Text1

基础大纲词 精读补充词 核心重难词
常考大纲短语 核心精读短语 考点长难句

P1 ① Habits are a funny thing. ② We **reach for** (伸手去取（文中指受其支配）) them mindlessly, setting our brains on auto-pilot and relaxing (放松) into the unconscious (无意识的) comfort of familiar routine (常规). ③ "Not choice, but habit rules the unreflecting herd (人群)," **William Wordsworth** ([人名]威廉·华兹华斯) said in the 19th century. ④ In the ever-changing (不断改变的) 21st century, even the word "habit" carries a negative (消极的) implication (暗示).

①习惯是件有趣的事情。②我们不假思索地依赖习惯，让大脑进入自动驾驶状态，安然享受熟悉惯例所带来的那种无意识的舒适。③威廉·华兹华斯在19世纪曾说过：“支配着那些缺乏思考的大众的，不是选择，而是习惯。”④在瞬息万变的21世纪，就连“习惯”一词都带有一层负面意味。

P2 ① So it seems paradoxical (矛盾的) to **talk about** (谈论) habits in the same context as creativity and innovation (创新). ② But brain researchers have discovered that when we consciously develop new habits, we create parallel (平行的（文中指相应的）) paths, and even entirely new brain cells (细胞), that can jump our trains of thought onto new, innovative tracks.

①因此，把习惯与创造力和创新放在一起讨论，似乎自相矛盾。②但大脑研究人员发现，当我们有意识地培养新习惯时，就会在大脑中开辟出一条条并行的通路，甚至生成全新的脑细胞，把我们的思路引上崭新的、富有创新性的轨道。

P3 ① **Rather than** (与其…（不如）) dismissing (贬低) ourselves as unchangeable creatures of habit, we can instead direct our own change by consciously developing new habits. ② **In fact** (实际上), the more new things we try —the more we step outside our **comfort zone** (舒适区) —the more inherently (内在) creative (创造性的) we become, both in the workplace and in our personal lives.

①与其认定自己不过是无法改变的习惯动物，不如通过有意识地培养新习惯，来主动引导自身的改变。②事实上，我们尝试的新事物越多——越是走出自己的舒适区——无论在工作中还是在个人生活中，我们内在的创造力就越强。

P4 ① But don't bother trying to **kill off** (消除) old habits; once those ruts (惯例) of procedure (程序) **are worn into** (被植入) the brain, they're there to stay. ② Instead, the new habits we deliberately (故意地) **press into** (把…塞入（文中指为自己培养新习惯）) ourselves create parallel (平行的) pathways that can bypass (绕开，避开) those old roads.

①不过，不必费力去消除旧习惯；那些程式化的沟壑一旦在大脑中磨蚀成形，就再也抹不掉了。②我们能做的是，通过刻意养成新习惯，在大脑中开辟出并行的通路，从而绕开那些旧的路径。

P5 ① "The first thing needed for innovation (创新) is a fascination (着迷) with wonder (好奇)," says **Dawna Markova** ([人名]道娜·马尔科娃), author (作者) of **The Open Mind** (《开放思维》). ② "But we are taught (教) instead to 'decide', just as our president calls himself 'the Decider'." ③ She adds, however, that "to decide is to **kill off** (消除) all possibilities (可能性) but one. ④ A good innovational thinker is always exploring (探索) the many other possibilities (可能性)."

①《开放思维》一书的作者道娜·马尔科娃说：“创新首先需要的是对奇妙事物的痴迷。”②“然而我们所受的教育却是要去‘做决定’，就像我们的总统自称‘决策者’一样。”③但她补充道：“做决定就意味着抹掉除所有可能性，只留下一种。④而优秀的创新型思考者总是在探寻众多其他的可能性。”

P6 ① All of us **work through** (设法克服) problems in ways of which we're unaware, she says. ② Researchers in the late 1960s discovered that humans **are born with** (生而具有) the capacity (能力) to approach (处理) challenges (挑战) in four primary (主要的) ways: analytically, procedurally (程序地), relationally (or collaboratively (协作地)) and innovatively. ③ At the end of adolescence, however, the brain **shuts down** (关闭) half of that capacity (能力), preserving (保留) only those modes (方式) of thought that have seemed most valuable during the first decade (十年) **or so** (…左右) of life.

①她说，我们所有人在解决问题时所采用的方式，其实都是自己意识不到的。②20世纪60年代末，研究人员发现，人类天生就具备用四种主要方式应对挑战的能力：分析式、程序式、关系式（或协作式）和创新式。③然而，到青春期结束时，大脑会关闭其中一半能力，只保留在人生最初十来年里显得最有价值的那些思维方式。

P7 ① The current emphasis on standardized testing highlights analysis and procedure, meaning that few of us inherently use our innovative and collaborative modes of thought. ② "This breaks the major rule in the American belief system——that anyone can do anything," explains **M. J. Ryan**, author of the 2006 book **This Year I Will**... and Ms. Markova's business partner. ③ "That's a lie that we have perpetuated, and it fosters commonness. ④ Knowing what **you're good at** and doing even more of it creates excellence." ⑤ This is where developing new habits **comes in**.

①当前对标准化考试的重视突出的是分析和程序，这意味着我们中很少有人天生就会运用创新型和协作型的思维方式。②2006年出版的《今年我将……》一书的作者、马尔科娃女士的商业伙伴M.J.瑞安解释说：“这打破了美国信念体系中的一条重要准则——即任何人都能做任何事。”③“这是我们一直延续下来的谎

Q1. In Wordsworth's view, "habits" is characterized by being_____. 词句理解题

[A] casual
[B] familiar
[C] mechanical
[D] changeable

在华兹华斯看来，“习惯”的特点是_____。

A.不经意的
B.熟悉的
C.机械的
D.多变的

Q2. Brain researchers have discovered that the formation of new habits can be_____. 细节题

[A] predicted
[B] regulated
[C] traced
[D] guided

大脑研究者发现新习惯的形成可以被_____。

A.预测
B.调节
C.追踪
D.引导

Q3. The word "ruts" (Line1, Paragraph4) is closest in meaning to ___. 词句理解题

[A] tracks
[B] series
[C] characteristics
[D] connections

第四段第一行的“ruts”意思上最接近_____。

A.路径
B.系列
C.特征
D.联系

Q4. **Dawna Markova** would most probably agree that _____. 细节题

[A] ideas **are born of** a relaxing mind
[B] innovativeness could be taught
[C] decisiveness **derives from** fantastic ideas
[D] curiosity activates creative minds

道娜·马尔科娃最有可能同意____。

A.放松的心灵产生思想
B.创新是可以被教会
C.决策来自新奇的思想
D.好奇心激活创造性思维

Q5. Ryan's comments suggest that the practice of standardized testing_____. 细节题

[A] **prevents** new habits **from** being formed
[B] **no longer** emphasizes commonness
[C] maintains the inherent American thinking mode
[D] **complies with** the American belief system

瑞安的评论表明标准化测验的实践_____。

A.阻止新习惯形成
B.不再强调平庸
C.保持美国人固有的思维模式
D.符合美国信仰体系
